   3. Breakdown of the method by which reports were received
   4. Breakdown of the tips by Intermediate Unit
   5. The total cost to operate the program, including staffing costs, administrative costs and support cost.
   6. The total number of false tips received
   7. The total number of schools and students trained

IV. Comparison to previous report

V. Conclusion and Recommendation

VI. Appendix A: Breakdown of top ten report categories by Intermediate Unit
I. Safe2Say Something Overview

In 2018, the General Assembly passed Act 44, which mandated the Office of Attorney General to establish the “Safe2Say Something” (S2SS) anonymous reporting system and required every Pennsylvania school entity to participate in the program by January 14, 2019.

S2SS is a life-saving and life-changing school safety program that teaches students, educators, and administrators how: (1) to recognize the signs and signals of individuals who may be at risk of hurting themselves or others, and (2) to anonymously report this information through the S2SS app, website, or 24/7 Crisis Center Hotline.

The OAG, in partnership with Sandy Hook Promise (SHP), a leader in anonymous reporting systems, has built out the app, website, and PA-based 24/7 Crisis Center. SHP is a national non-profit committed to creating safe schools and communities through their four evidenced-based Know the Signs intervention programs.

Students, educators and administrators have the opportunity to be trained to recognize the signs and signals of individuals who may be at risk of hurting themselves or others along with how to use the S2SS anonymous reporting system to submit tips of the signs and signals they observe.

OAG Crisis Center analysts are trained to vet and triage tips by: (1) conducting 2-way anonymous dialog with tipsters to gather missing information and ensure enough information is provided for schools and local law enforcement to act upon, (2) categorizing each tip as either “Life Safety” or “Non-Life Safety,” for ease of prioritization by tip recipients, and (3) delivering the tip to the impacted school and, when needed, its local law enforcement via 911 county dispatch.
II. Reporting Requirements

In accordance with Act 44 of 2018, Section 1307-D (a), the Safe2Say Something Program Annual Report is respectfully submitted to the chairperson and minority chairperson of the House and Senate Appropriations Committees, and the chairperson and the minority chairperson of the House and Senate Education Committees.

As required by law, the data included covers the previous school year, starting July 1, 2019 through June 30, 2020, related to the following:

- The number of reports received for the previous school year.
- The total number of reports received since the program began.
- A breakdown of reports by type.
- A breakdown of the method by which the report was received.
- A breakdown of the reports by Intermediate Unit, utilizing only aggregate data.
- The total cost to operate the program, including staffing costs, administrative costs, and support costs.
- The total number of false reports received.
- Any other information the Attorney General deems appropriate.

III. Findings for the 2021-2022 School Year, July 1, 2021 –June 30, 2022

1. Number of reports received, and total number of report received since the launch of the program (January 14, 2019).

Since the launch of the program, the tip line has received **82,995 tips**. This number excludes any false reports received, as well as any test tips to the system.

For the 2021-2022 school year, the Safe2Say Something program received **26,174 tips**. This number also excludes false report received, and any test tips.

2. Breakdown of reports by type.

The chart below represents a breakdown of reports by type and includes the top 10 categories of tips received by the Safe2Say Something Program since the launch. The top 3 categories are Bullying/Cyber Bullying, Smoking (Tobacco, E-Cig, Vape) in School, and Suicide / Suicide Ideation. The Safe2Say Something Program has 52 different event types to choose from on the mobile application as well as additional event types that only the Safe2Say Something Investigative Analysts can designate during triage.
3. **Breakdown of the method by which the report was received.**

Reports can be received by the Safe2Say Something Program in 3 ways. A report can be submitted via the Safe2Say Something mobile application, which is available for download. Reports can also be submitted through the Safe2Say Something website, as well as calling the hotline and speaking to an investigative analyst directly. The chart below represents the breakdown of the method by which tips were submitted. The website submissions are further broken down between tips that are submitted via a PC and tips submitted using a mobile browser (i.e. cell phone or tablet).

4. Breakdown of the reports by Intermediate Unit, utilizing only aggregate data.

The following is a breakdown of reports, grouped by Intermediate Units. This breakdown contains the tip numbers for all school districts registered with the Safe2Say Program, within their assigned Intermediate Unit, as required in Act 44. Also, for the purpose of streamlining and simplifying the data, Intermediate Unit’s 2 and 3 were combined.

*It is important to note that some tips received involved multiple schools creating duplicate tip statistics.*
5. The total cost to operate the program, including staffing costs, administrative costs and support cost.

The following figure represents the fiscal year cost for operation of the crisis center, continuing education, and outreach for the program: $1.66 Million.

6. The total number of false reports received

The Office of Attorney General classifies false reports into 2 categories: tips immediately identified as being false, and those determined to be false based off of an investigation conducted by the school team or police. The number of false reports made to the system this year is at 4%.

During the 2021 – 2022 school year, the Safe2Say Something Program has received a total of 1,053 tips that were designated as false reports or prank tips.

There were a total of 669 tips that were immediately identified as prank tips by the crisis center analysts. These tips were delivered to the school account without sending a notification to the school team.

There were a total of 384 tips containing the disposition of "Deliberate Abuse of System" which are tips that contain seemly credible information yet proven untrue upon investigation; or the information was provided with the intention to harm or disrupt.

False tips submitted to Safe2Say present safety risks to students and drain program and law enforcement resources. While false tips are rare, it is critical to the success of the program to keep false tips rare. The Office of Attorney General (OAG) encourages District Attorneys to investigate and file charges in the event of a false tip as a deterrent, and the OAG is prepared to assist local District Attorneys in these investigations.

7. Total number of schools and students trained

Student training was offered this year through either self-led trainings, an in person trainer, or using an interactive video. A training model was created in the previous year for students who were home schooling as well. The number of students that received Safe2Say Something training during the 2021 – 2022 school year, totaled approximately 650,000.
IV. **Comparison from Previous Reports**

In the previous school year (July 1, 2020 – June 2021), the Safe2Say Something Program received 10,495 tips. During the 2021-2022 school year, (July 1, 2021-June 30, 2022), the Safe2Say Something Program received 26,174 tips, which was an increase of 15,679 tips. The Safe2Say Something Program has received more tips this school year, that any year prior. Life Safety Tips this year were at 15% of all tips received, which was a decrease from the previous year which was at 21%.

V. **Conclusion and Recommendation**

The Safe2Say Something Program, saw a significant increase in tips this school year. The Safe2Say Something Program has also seen a rise in reports received related to threats against schools, one of the initial purposes of the program. This school year alone, 25 weapons were recovered as a result of tips received to the Safe2Say Something Program. This is significantly more than the previous school year, where 3 weapons were recovered as a result of Safe2Say Tips.

In addition to the threat of violence, our children continue to face an increased pressure on their mental health that previous generations have not experienced, from youth gun violence to bullying and isolation on social media. Parents need help to guide their children through these challenges, and our teachers are not able to meet these demands themselves.

The numbers in this report show the reality of what our children are facing day to day, and the Attorney General urges the General Assembly to analyze this data and address the need for increased counseling and mental health resources for students across our Commonwealth.

Expanding support for mental health in our schools will ultimately keep more students safe and help our youngest generation respond to many of the challenges they face today in a safe and healthy way.
