I. Safe2Say Something Overview

In 2018, the General Assembly passed Act 44, which mandated the Office of Attorney General to establish the “Safe2Say Something” (S2SS) anonymous reporting system and required every Pennsylvania school entity to participate in the program by January 14, 2019.

S2SS is a life-saving and life-changing school safety program that teaches students, educators, and administrators how: (1) to recognize the signs and signals of individuals who may be at risk of hurting themselves or others, and (2) to anonymously report this information through the S2SS app, website, or 24/7 Crisis Center Hotline.

The OAG, in partnership with Sandy Hook Promise (SHP), a leader in anonymous reporting systems, has built out the app, website, and PA-based 24/7 Crisis Center. SHP is a national nonprofit committed to creating safe schools and communities through their four evidenced based Know the Signs intervention programs.

Students, educators and administrators have the opportunity to be trained to recognize the signs and signals of individuals who may be at risk of hurting themselves or others along with how to use the S2SS anonymous reporting system to submit tips of the signs and signals they observe.

OAG Crisis Center analysts are trained to vet and triage tips by: (1) conducting 2-way anonymous dialog with tipsters to gather missing information and ensure enough information is provided for schools and local law enforcement to act upon, (2) categorizing each tip as either “Life Safety” or “Non-Life Safety,” for ease of prioritization by tip recipients, and (3) delivering the tip to the impacted school and, when needed, its local law enforcement via 911 county dispatch.

II. Reporting Requirements

In accordance with Act 44 of 2018, Section 1307-D (a), the Safe2Say Something Program Annual Report is respectfully submitted to the chairperson and minority chairperson of the House and Senate Appropriations Committees, and the chairperson and the minority chairperson of the House and Senate Education Committees.

As required by law, the data included covers the previous school year, starting July 1, 2025, through June 30, 2026, related to the following:

- The number of reports received for the previous school year.
- The total number of reports received since the program began.
- A breakdown of reports by type.
- A breakdown of the method by which the report was received.
- A breakdown of the reports by Intermediate Unit, utilizing only aggregate data.
- The total cost to operate the program, including staffing costs, administrative costs, and support costs.
- The total number of false reports received.
- The total number of student trainings received by school entities.
- The total number of trainings of school personnel on the program, including how to receive, respond and dispose of reports from the program.
- A list of school entities that have not yet completed training on how to receive, respond, and dispose of reports from the program.
- Any other information the Attorney General deems appropriate.

III. Findings for the 2025-2026 School Year, July 1, 2025 –June 30, 2026

1. Number of reports received, and total number of reports received since the launch of the program (January 14, 2019).

Since the launch of the program, the tip line has received **205,290 tips**. This number excludes any false reports received, as well as any test tips to the system.

For the 2025-2026 school year, the Safe2Say Something program received **26,240 tips**. This number excludes false reports received, and any test tips.

2. Breakdown of reports by type.

The chart below represents a breakdown of reports by type and includes the top 10 categories of tips received by the Safe2Say Program in the 2025-2026 school year. The Safe2Say Something Program has 34 different event types to choose from as well as additional event types that only the Safe2Say Something Investigative Analysts can designate during triage.

TOP 10 EVENT TYPES 7/1/2025 – 6/30/2026	
Event Type	Count
Bullying / Cyber Bullying	4314
Suicide / Suicide Ideation	2635
Cutting / Self-Harm	2078
Drug Distribution / Possession	2019
Inappropriate Language/Behavior/Gesture	1920
Smoking (Tobacco, E-Cig, Vape) in School	1632
Threat Against Person	1215
Substance Abuse (Alcohol, Drugs)	1096
General Student Concern	764
Threat Against School	668

The remaining event types and total tip numbers are available upon request.

3. Breakdown of the method by which the report was received.

Reports can be received by the Safe2Say Something Program in 4 ways. A report can be submitted via the Safe2Say Something mobile application, which is available for download. Reports can also be submitted through the Safe2Say Something website, texting, and calling the hotline. The website submissions are further broken down between tips that are submitted via a PC and tips submitted using a mobile browser (i.e., cell phone or tablet).

4. Breakdown of the reports by Intermediate Unit, utilizing only aggregate data.

The following is a breakdown of reports, grouped by Intermediate Units. This breakdown contains the tip numbers for all school districts registered with the Safe2Say Program, within their assigned Intermediate Unit, as required in Act 44. Also, for the purpose of streamlining and simplifying the data, Intermediate Unit's 2 and 3 were combined.

***It is important to note that some tips received involved multiple schools creating duplicate tip statistics.**

5. The total cost to operate the program, including staffing costs, administrative costs and support cost.

The following figure represents the **fiscal year** cost for operation of the crisis center, continuing education, and outreach for the program: **\$2.5 Million**.

6. The total number of false reports received.

The Office of Attorney General classifies false reports into 2 categories: tips immediately identified as being false, and those determined to be false based off an investigation conducted by the school team or police. The number of false reports made to the system this year is at 2.3%.

During the 2025 – 2026 school year, the Safe2Say Something Program has received a total of 596 tips that were designated as false reports or prank tips.

There was a total of 328 tips that were immediately identified as prank tips by the crisis center analysts. These tips were delivered to the school account without sending a notification to the school team.

There was a total of 268 tips containing the disposition of "Deliberate Abuse of System" which are tips that contain seemly credible information yet proven untrue upon investigation; or the information was provided with the intention to harm or disrupt.

False tips submitted to Safe2Say present safety risks to students and drain program and law enforcement resources. While false tips are rare, it is critical to the success of the program to keep false tips rare. The Office of Attorney General (OAG) investigates and prosecutes false tip cases.

7. Total number of student training received by school entities.

Student training was offered this year through either self-led training, an in-person trainer, or using an interactive video. A training model was created in the 2020-2021 school year for students who were home schooling as well. During the 2025 – 2026 school year, Safe2Say Something training was provided to **1,704 schools**, reaching a total of **417,490 students**.

See [Appendix B](#) for a list of school entities that have not reported completing Safe2Say student training in the 2025 – 2026 school year.

8. The total number of trainings of school personnel on the program, including how to receive, respond and dispose of reports from the program.

207 school entities participated in either comprehensive Safe2Say Team Training or disposition-only training in the 2025-2026 school year.

See Appendix C for a list of school entities that have not yet completed training on how to receive, respond and dispose of reports from the program.

IV. Comparison of Previous Reports

In the previous school year (July 1, 2024 – June 30, 2025), the Safe2Say Something Program received **32,012 tips**. During the 2025-2026 school year, (July 1, 2025 – June 30, 2026), the Safe2Say Something Program received **26,240 tips**, which was a **18% decrease**. This year, Life Safety Tips accounted for 19% of all tips received, a slight increase from the previous school year.

Event Type	2025-2026	2024-2025	% Change
Bullying / Cyber Bullying	4314	5498	-22%
Suicide / Suicide Ideation	2635	2607	+1%

V. Conclusion and Recommendation

Overall tip volume decreased by 18% during the 2025-2026 school year compared to the previous years. Despite the decline, the program continues to receive a significant number of reports, demonstrating that students remain willing to utilize the Safe2Say Something program to report their concerns.

Student training also decreased by 20% from the previous school year, which may have contributed to the reduction in overall tip volume, as training is the primary method of introducing students to the Safe2Say Something program and reinforces how and when to report concerns.

The 2025-2026 school year marks approximately six years since the statewide launch of the Safe2Say Something program. Students who received the initial rollout training have now largely graduated. Schools that did not continue annual training may now have student populations with limited or no exposure to the program. This observation highlights the importance of providing annual training to ensure each new class of middle and high school students understands the purpose of the program and how to utilize it.

Although overall tip volume declined, reports involving Suicide/Suicide Ideation increased by 1% and reports involving Cutting/Self-Harm increased by 5%. These trends underscore the continued need for mental health awareness, prevention efforts, and timely intervention. Maintaining consistent student training and awareness initiatives remains an important component to ensure students recognize warning signs and know how to report concerns before they escalate.

The continued recovery of weapons as a result of Safe2Say tips demonstrates the program's ongoing impact on school and community safety. This school year, information received through the program contributed to the recovery of 23 weapons, bringing the total number of weapons recovered to 175 since the program's launch.

Based on these findings, continued emphasis should be placed on annual student training and outreach to schools that have not recently participated in training.
